

# FATHERS AND MOTHERS BEWARE!!

## Your Children are Not Safe on the Streets of Marion

You started your children to church yesterday where they were to be taught Temperance, Sobriety and Christianity. Desperate men stood at the school house doors and at every street corner and gave them tickets to the picture shows to entice them away from the church. If these criminals get back in power how long will it be until they entice them into their resorts to create an appetite for something worse.

## They Must Have Children, Take Warning From Conditions in Sidney

160 School Boys and Girls in that town have recently been called before the grand jury to testify against saloon keepers who sold them drink.

Do you want this to happen to your boy and girl?

These men know no moral law. They have resorted to forgery to bring about this election. At least twenty-five men have already been found whose names appeared on the wet petition, who say that they will swear that they never even saw the wet petition. The names of minors are also there, also dead men's names, Some who have been dead for several years. There are also men's names who have been out of the state for 25 years. Can you trust such men to entice your children where they will, when you send them on the streets?

## Every Father and Mother in Marion

should wake up to the true situation. Don't think because you have only girls that you have no interest in this affair. Your girls are in just as much danger as your boys. A father who will cast his vote to bring back this nefarious business with such desperate men at the head is not worthy the name of Father. The self-confessed criminals talk about the revenue derived from the liquor business. Are you ready to sell your children, body and soul for money. Besides anyone who has a grain of sense knows that the revenue from a saloon is not a drop in the bucket toward repairing the damage done by them.

## The Four Hundred's Story

THE wonderful story of "The Four Hundred" begins in PEARSON'S MAGAZINE for November. It is the story of the rise and fall, morally and otherwise, of some big rich families which have formed the so-called American aristocracy, to which most people kowtow. It is the story of society with a capital "S"—If you like to read about such "doings" begin to read these stories at the beginning. They are the stories of The Four Hundred. How the control of hard coal by a few men forces you to pay 75 cents a ton more than you ought to pay, and what you can do about it, is explained in another article. The benefit of the automobile—the fallacy of the idea that automobiles are rich men's toys—is the subject of another. The fourth part of "The Usurped Power of the Courts" is in the same magazine, and this is a story which you should not miss. If you do, you will soon be sorry that you did. And the fiction includes eight splendid short stories of romance, mystery and adventure—eight complete stories, and every one is good.

MANY DESERT FROM IMPERIAL FORCES

Yuan Shih Kai, commander of the Chinese Imperial army, has complained to the minister of war that scores of his men are deserting daily and going over to the revolutionists. So seriously does the government now regard the rebellion that free pardons have been offered to several of the revolutionary leaders if they will desert their cause.
